

BE GOOD. DO GOOD.

GOOD PEOPLE & GOOD BUSINESS

"Climate change is the single most urgent environmental issue facing the world today."

LLOYD BOROWSKI, McCAIN VP GLOBAL OPERATIONS SUPPORT

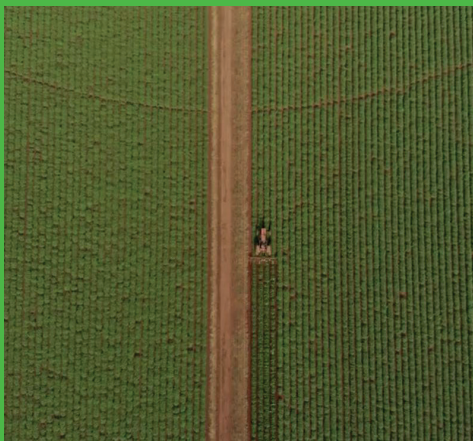

We are committed to mitigating our impact on the planet with a focus on reducing our carbon footprint and improving operational resource efficiency. We are proud to share some of the initiatives that we have in place across our business.

McCAIN'S GLOBAL SUSTAINABILITY INITIATIVES

"Be Good. Do Good" is forming part of McCain's response to climate change:

McCain is investing in energy efficiency and climate innovation to support the optimisation of existing systems, scale up proven best practice technologies and explore renewable and low carbon technology models.

McCain is committed to reducing CO2 emissions from potato farming by supporting our growers to adopt sustainable farming practices.

OPERATIONS ACROSS AUSTRALIA

McCain purchased its first factory in 1971 and has been celebrating local produce ever since.

Today, we have a strong network of three factories in Australia across Lisarow, Ballarat and Smithton.

OUR LOCAL WORKFORCE OVER 1,150 PEOPLE

We are all about celebrating local people and work with a talented workforce of over 1,150 people in Australia.

Our plants employ over 900 locals and over 250 people work at our offices across the country.

OVER \$125 MILLION INVESTED IN PLANTS

McCain is all about supporting local business and continually invests in its plants for upgrades and infrastructure improvements.

Over \$125 Million has been invested across our plants in Australia over the last 5 years.

As a responsible business, we aim to grow while reducing environmental impact over the coming years.

SOLAR INSTALLATION IN BALLARAT

We will complete the Solar installation in Ballarat in 2020 with the aim of renewable electricity in all our plants by 2030.

NEW WATER-STRESSED TOLERANT VARIETIES

We have a global goal of achieving 20% deployment of new water-stressed tolerant varieties on total McCain potatoes by 2025.

REDUCING CO₂ EMISSIONS

We are working towards 50% reduction in CO₂ emissions by 2030, ceasing use of coal by 2025.

ZERO WASTE

We are striving towards zero waste which means 100% potato utilisation in all our plants by 2025.

SUSTAINABLE PACKAGING

We are committed to reaching 100% reusable, recyclable or compostable packaging by 2025.

MCCAIN IS COMMITTED TO OUR STRATEGY TO BE GOOD DO GOOD THROUGH:

- ✓ Investing in waste minimization strategies
- ✓ Exploring new ways of bringing renewable energy into our operations
- ✓ Focusing on ways to conserve and re-use water in our processes
- ✓ Giving back to communities in which we live and work
